

KNOTOLOGY

by Heinz Strobl, Knotologist

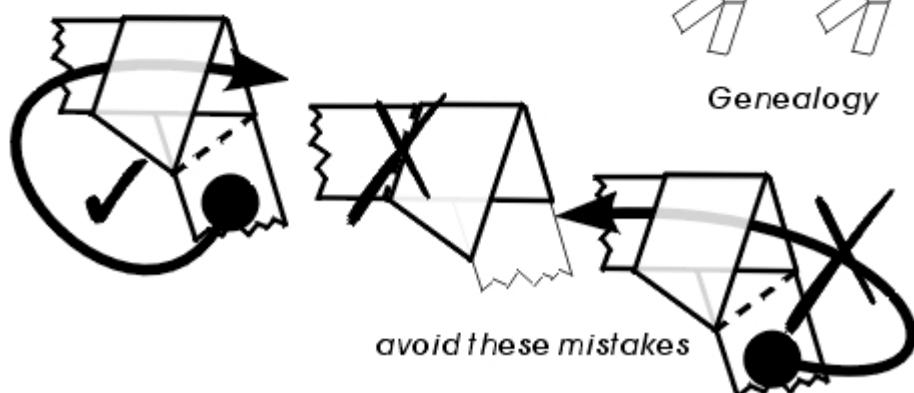

Two methods to fold a Pentagonal Knot

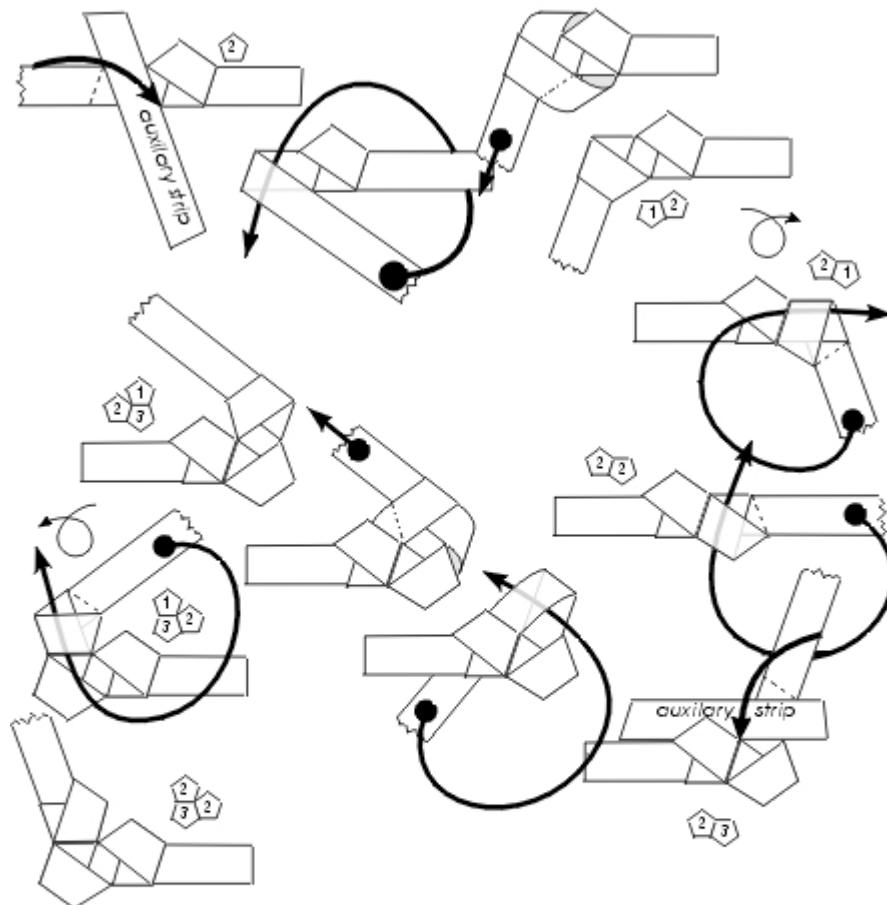

The Multiknots

add each knot layer this way

Pentagons with common edges

Star Module

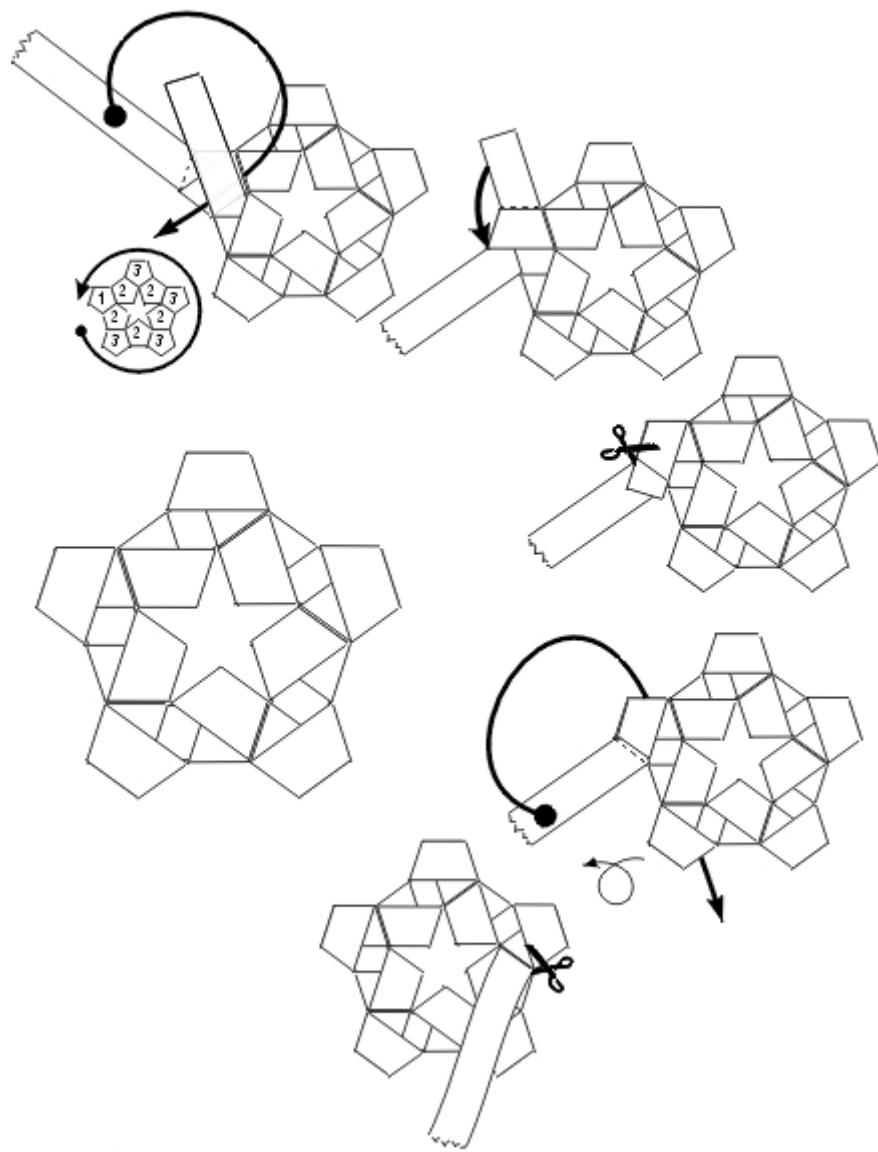

$$\begin{array}{c} \textcircled{2} + \textcircled{2} \\ \text{length of strip} = 100 \times \text{width} \end{array} = \begin{array}{c} \textcircled{3} \textcircled{2} \textcircled{2} \textcircled{3} \\ \textcircled{2} \textcircled{3} \textcircled{2} \textcircled{3} \\ \textcircled{3} \textcircled{2} \textcircled{3} \end{array}$$

Ring Module

$$\begin{array}{c} \textcircled{2} + \textcircled{1} + \textcircled{2} + \textcircled{1} + \textcircled{2} + \textcircled{1} + \textcircled{2} + \textcircled{1} + \textcircled{2} + \textcircled{1} \\ \text{length of strip} = 70 \times \text{width} \end{array} = \begin{array}{c} \textcircled{1} \textcircled{2} \textcircled{1} \\ \textcircled{2} \textcircled{1} \textcircled{2} \\ \textcircled{1} \textcircled{2} \textcircled{1} \\ \textcircled{2} \textcircled{1} \textcircled{2} \\ \textcircled{1} \textcircled{2} \textcircled{1} \end{array}$$

Explore further modules by combining the knots of the genealogy by yourself

Locking of the Star Module
